Neti pot

Neti cleans nose, nasal passages, and sinus cavities. It is very helpful for people with asthma and allergies, and is believed to reduce the affects of the common cold.

The optimum gradient of Neti prevents overflow
The bulb shape spout helps to plug nostril up during use
No chemical material steeped

How to use Neti pot

1. Fill the neti pot with 20°C water.
2. Add 1 teaspoon of salt into neti pot.
Stir well to dissolve thoroughly.
3. Gently place the spout of the neti pot inside your right nostril. Breathe continuously through mouth during this sinus cleansing procedure.
4. Tilt your head sideways, so that your right nostril is directly above your left nostril.
5. Within a few seconds the water will naturally drain from your left nostril into the sink.

Form Arch

It stimulates human body directly, prevents arteriolar sclerosis and heart disease.
Also, it accelerates blood circulation.
